Probable Effects on the Soviet
Bloc of Certain Courses of Action
Directed at the Internal and External
Commerce of Communist China (SE-37)

1. Action: Approved as revised. Several members commented on the high degree of cooperation and effort achieved in producing this complex estimate on short notice.

Proposed Estimates for
Latin America

2. Action: Agreed to begin working-level consideration of the four estimates proposed in the Board's memorandum to the IAC of 27 February 1953 (NIE-84, Guatemala; NIE-85, Chile; NIE-86, Brazil; NIE ____, Argentina). It was understood that the proposed target dates were tentative, and that final IAC approval well might not be obtainable by the times suggested.

Stalin's Collapse

3. Mr. Dulles invited comment on the ability of the existing machinery of the Federal intelligence system to respond to crises such as that occasioned by the information of Stalin's illness. There was general agreement that, in this instance, the existing procedures were adequate, it being noted that Agency watch officers were promptly alerted and the President timely advised.

Executive Session

4. At General Porter's request, the Committee met in executive session at the conclusion of the regular meeting. It was agreed that the item of information he tabled would be considered as part of the forthcoming SE-39.
